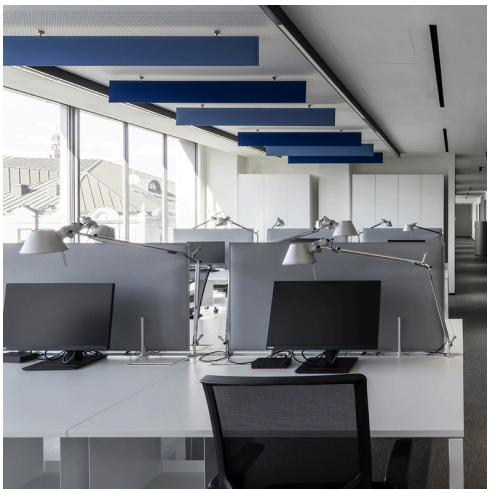
Artemide

Eggboard - Progetto CMR - Giacobone & Roj



Tolomeo - Michele De Lucchi & Giancarlo Fassina | A.39 - Carlotta de Bevilacqua

The design of the interior spaces of the new AMCO offices in Milan, followed by Progetto CMR, is conceived to meet the needs of the continuous evolution of AMCO in a scalable and sustainable way; it is based on a desk-sharing model that allows to operate in an agile way. On each floor there are areas for collaboration and concentration such as focus rooms, phone booths, meeting rooms, lounges and break areas for informal meetings.
The entire building was lit with Artemide products including Discovery Vertical, A.39, Eggboard and Sharp.
