

THANK YOU
for buying

Artemide[®]
INTEGRALIS[®]

White INTEGRALIS

Excellent Light Quality & Sanification

INTEGRALIS®

allows you to live spaces in safety, it can also act in the presence of people and supports our activities with perfect light, with performances comparable to traditional products.

It is a light that guarantees a correct perception combined with different antimicrobial activities, controlling the microbial growth of pathogen microorganisms.

INTEGRALIS®

eco-system

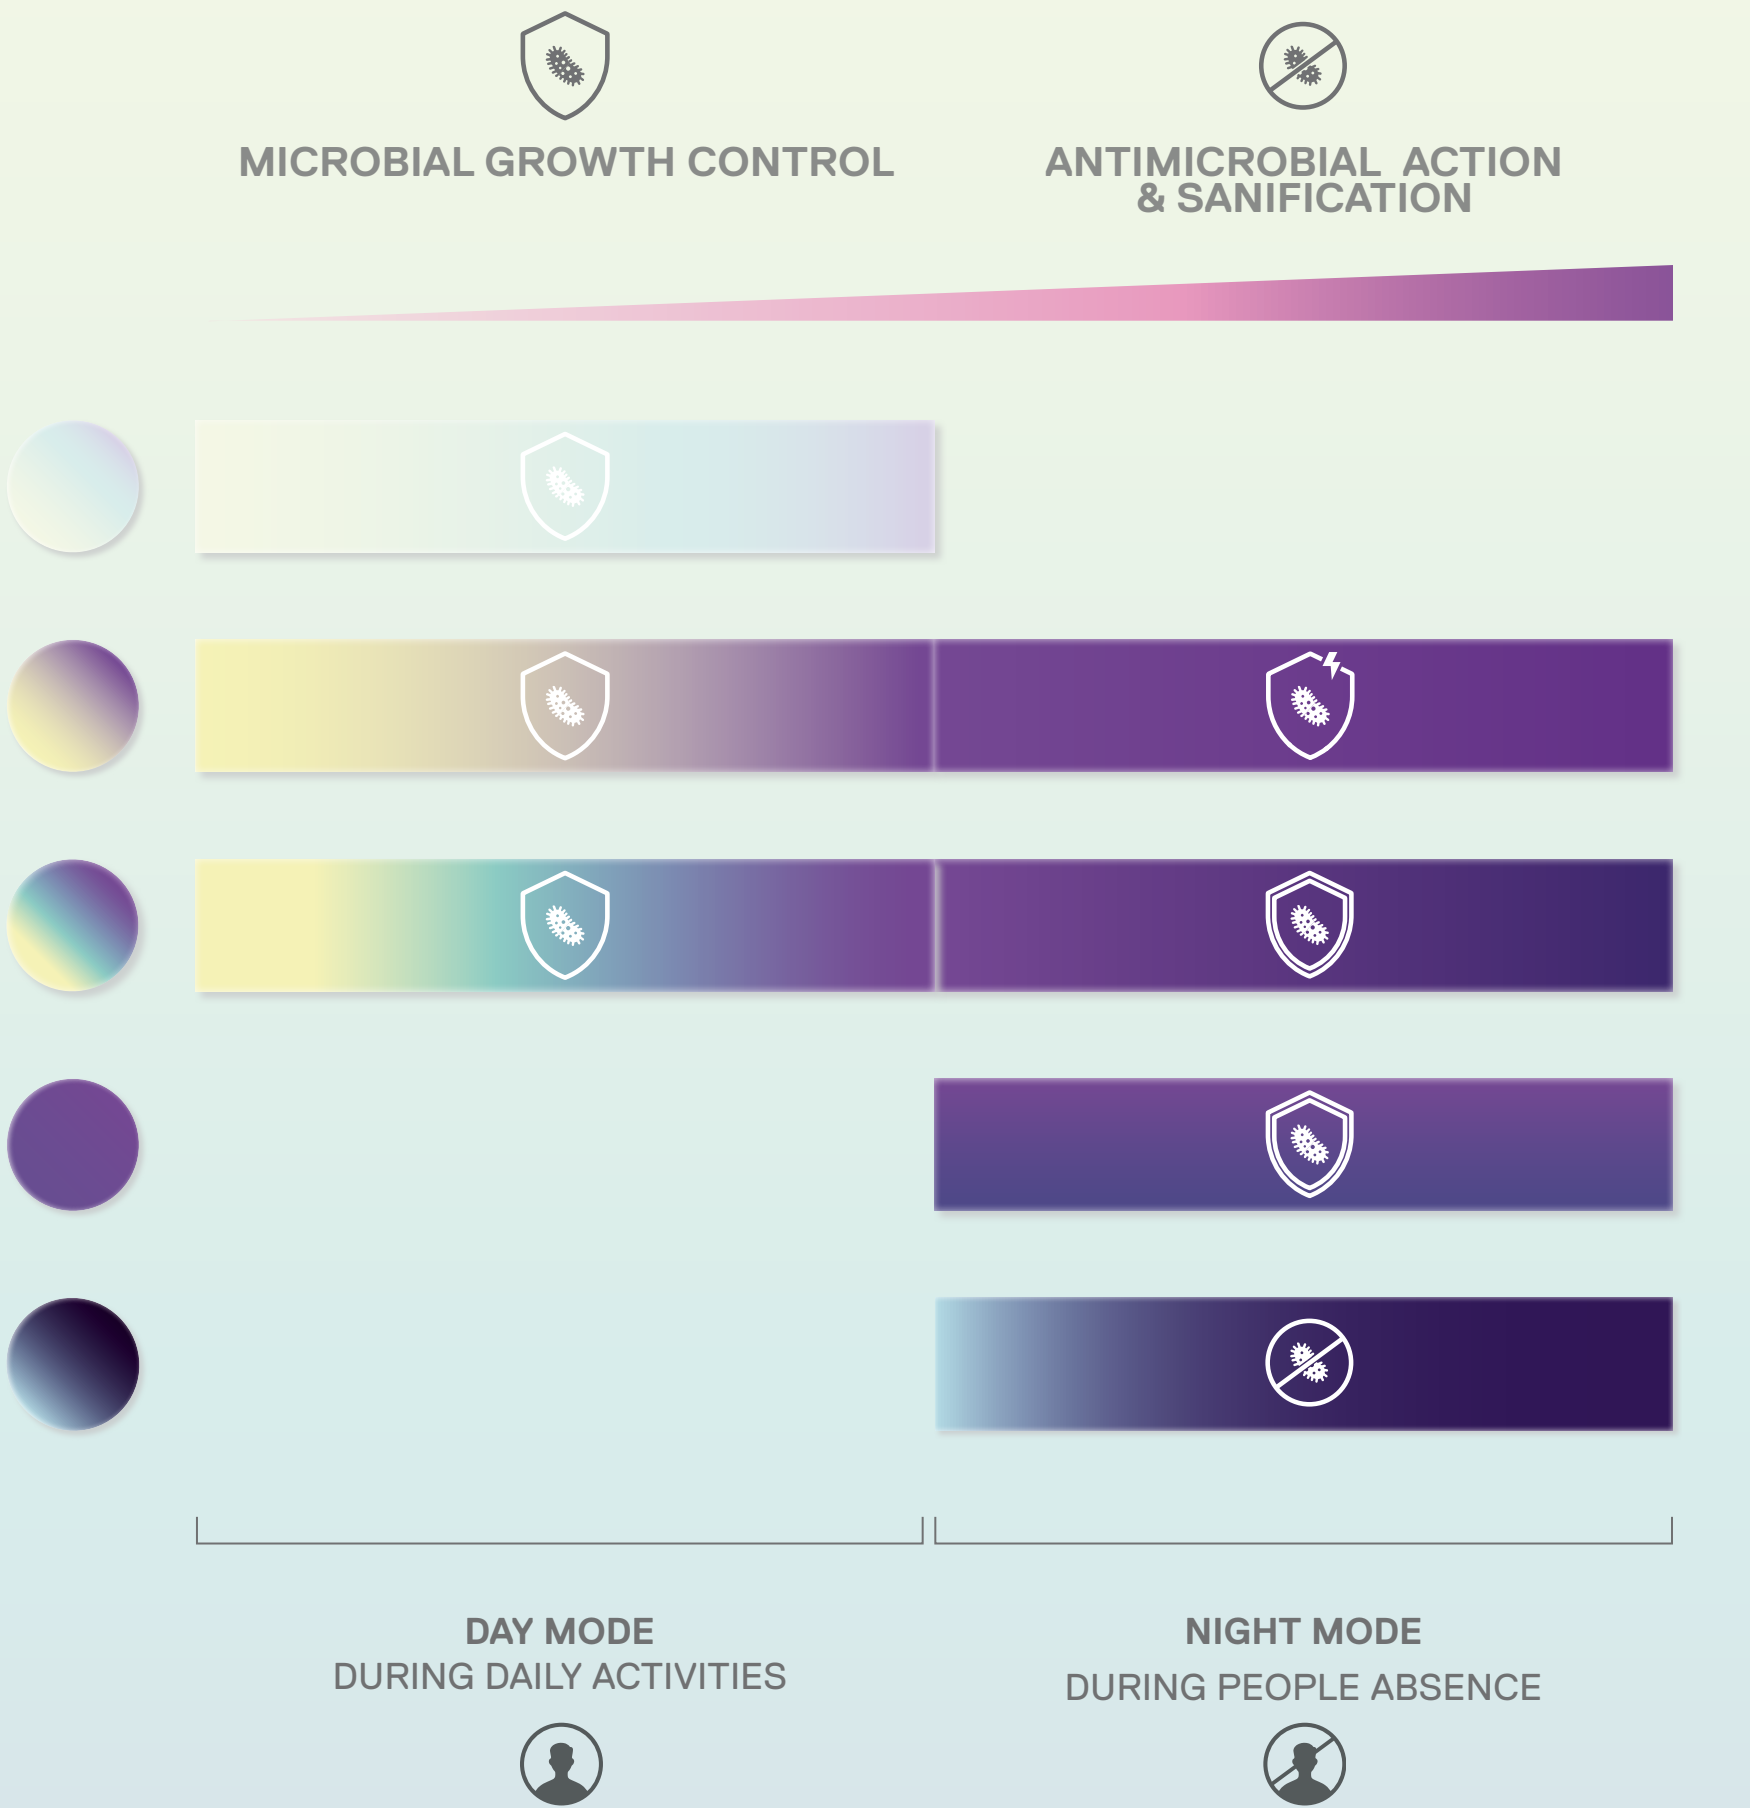

INTEGRALIS® follows the rhythm of life.

It combines four independent solutions (Pure Integralis, White-Violet Integralis, White Integralis, Violet Integralis) and can also benefit from the addition of UV technology that reliably is able to kill viruses.

The various technologies can be used individually or in combination one with the other depending on the intervention target, power, time, results and costs.

INTEGRALIS® is an open and versatile platform that includes different declinations and can be integrated into different products of the Artemide collection.

TWO MAIN ANTIMICROBIAL ENERGY THRESHOLDS

- WHITE INTEGRALIS 5000K CRI 90
- WHITE-VIOLET INTEGRALIS
- PURE INTEGRALIS THIS TECHNOLOGY IS ABLE TO CARRY OUT BOTH ACTIONS
- VIOLET INTEGRALIS
- UVC INTEGRALIS

- MICROBIAL GROWTH CONTROL
- STRONGER MICROBIAL GROWTH CONTROL
- ANTIMICROBIAL ACTION
- ANTIMICROBIAL ACTION
- SANIFICATION

WHITE INTEGRALIS

WHITE INTEGRALIS offers a white emission for a perfect perception in accordance with the human presence and which at the same time combines an effect of control of bacterial growth. It can vary in intensity and is available with a fixed CCT of 5000K, with a high colour rendering index (Ra 90).

FEATURES

- ♦ Microbial growth control.
- ♦ Full spectrum & good perception.
- ♦ Fixed 5000K CCT and Ra 90.
- ♦ Dimmable (0% - 100%).

- ♦ Human presence ever allowed.

INTEGRALIS®

an open platform,
a scalable formula
depending on several
variables

The freedom to choose your “DOSE of microbial growth control”.

A “DOSE” is the measure of the energy to be applied to the environment surfaces depending on time available to sanitize.

MICROBIAL GROWTH CONTROL MODE

It is recommended high illumination (> 500 lux) and application time between 12 and 24 hours.

Microbial growth control mode

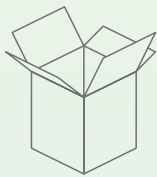

Human presence allowed

LET'S START WITH ARTEMIDE

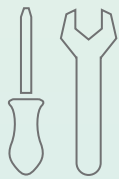

1

UNBOX

(unpack the lighting fixture and its accessories)

2

FOLLOW THE INSTRUCTION SHEET

(which is placed inside the box)

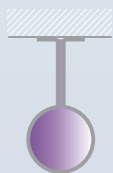

3

SWITCH IT ON

(make sure the lighting fixture is connected to the power supply)

4

ENJOY IT

(the Artemide experience begins)

**For Artemide App Compatible
WHITE INTEGRALIS products
follow next steps**

LET'S PLAY WITH ARTEMIDE APP

1

ARTEMIDE APP
SMARTPHONE AND TABLET

DOWNLOAD THE ARTEMIDE APP

2

TURN ON THE BLL CONNECTION ON YOUR SMART DEVICE

3

REGISTER AND LOG-IN WITHIN THE APP

With only few simple steps you can create your administrator account. Your Network information will be safely stored on the secure Cloud. By logging you will always have everything with you on your multiple smart devices.

LET'S PLAY WITH ARTEMIDE APP

4

CREATE A NEW NETWORK

A Network (☰ icon) is the environment where one or more of your App-connected lighting fixtures are placed: it can have any name you want (i.e. Home, Office, Restaurant etc...).

Infinite Networks can be created, each Network can contain an infinite number of lighting fixtures and a maximum of 14 groups of lamps.

5

ADD YOUR LIGHTING FIXTURE TO THE NEW NETWORK

To manage your lamp, you have to add it in your Network. The scan list function (☰ icon) allows you to scan surroundings and find the lighting fixtures or system interfaces to add them to your Network.

To add lamps with system interface click **HERE**.

LET'S PLAY WITH ARTEMIDE APP

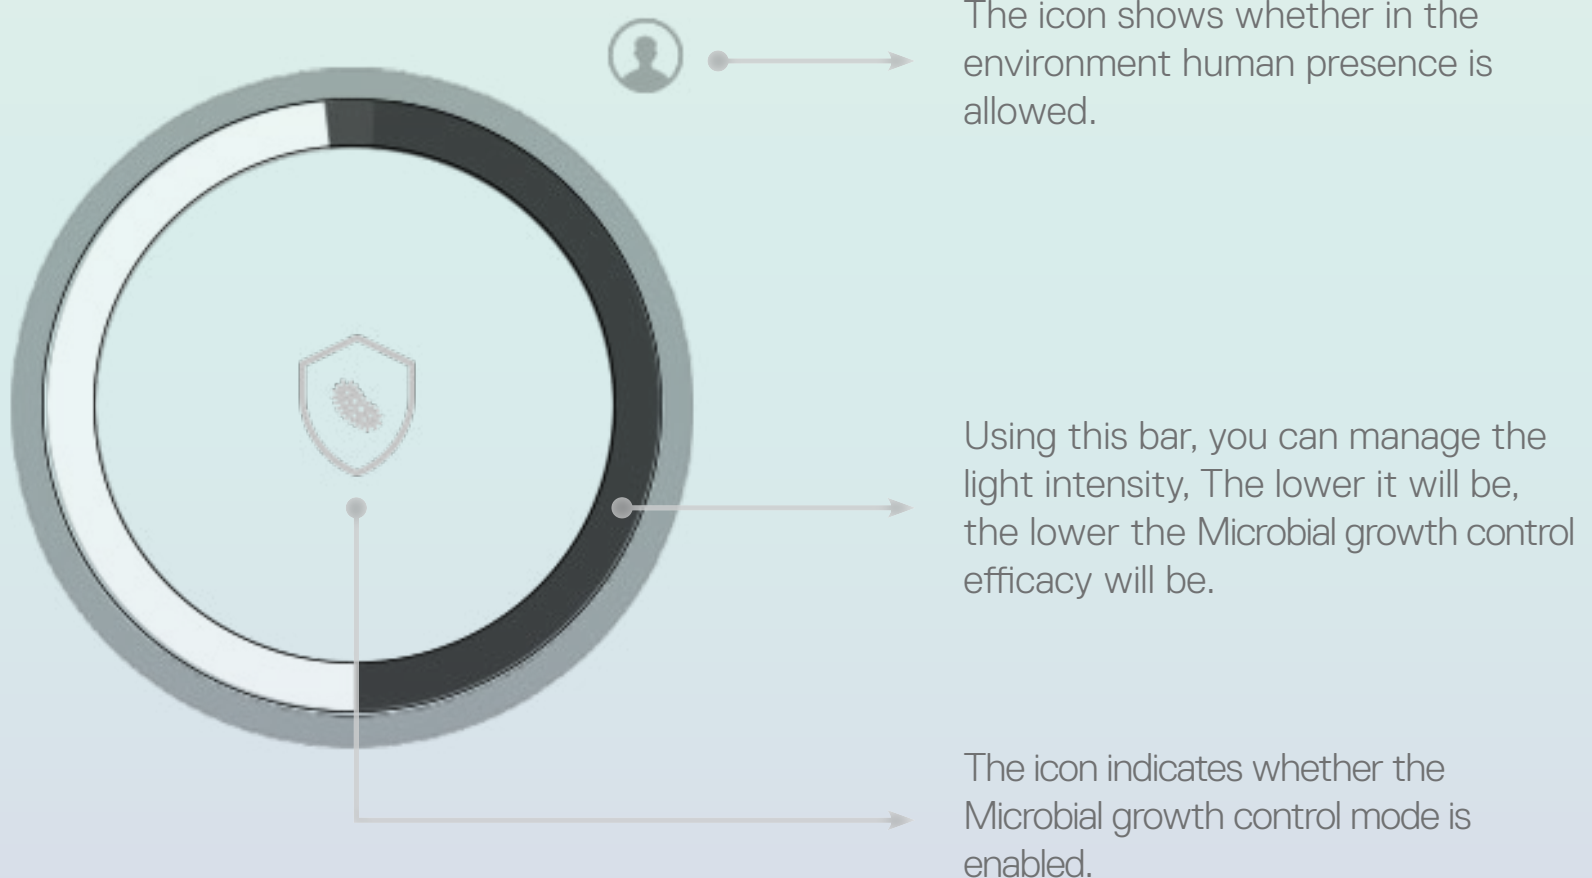

WHITE INTEGRALIS management

6

MANAGE YOUR LIGHTING FIXTURE

With intuitive gestures it is possible to manage single lighting fixtures or lighting fixtures groups. You can manage light intensity, colour temperature, colour point and apply/create static or dynamic scenes.

LET'S PLAY WITH ARTEMIDE APP

7

MULTI-USER

ALLOW YOUR GUESTS TO MANAGE THE LIGHT

The administrator account can allow the management of lighting fixtures to its guests (@ icon). The guest user must register in the Artemide App and the administrator is free to choose whether to let them manage the entire network or only a part of it.

8
