**DESCRIPTION**

Series of projectors using high-efficiency led with monochromatic warm white (3000K) and neutral white (4000K) emission. Comprised of an aluminium body with bright anodized finish and a translucent cover in polycarbonate. Pad is available in four mounting options: with three-phase track adapter, with base plate or recessed plate for ceiling mounting, and in combination with the Algoritmo product line. The array of 12 leds (13W in total) lays on a metal core placed on the aluminium body of the projector that acts as heat dissipator. The special power supply system is housed within the body, thus allowing a direct connection to the electrical network (100-240V). The cover acts as a support for the lenses available in 3 beam options. It provides a diffused lighting effect while ensuring protection for the electrical parts. A smart hinge that combines reduced dimensions with a very large angular excursion provides extreme flexibility of rotation: rotation of up to 358°, tilt angle of up to +90°/-90°. Versions with surface ceiling plate and recessed ceiling plate are dimmable (Switchdim). Complies with EN60598-1 and other specific standards.
