

# Pad Square Kit for Algoritmo - 29W 4000K - 36°

IP40

## DESIGN BY

Carlotta de Bevilacqua

## DESCRIPTION

An extension of the PAD (POÈME DE L'ANGLE DROIT) concept, PAD SQUARE houses an array of 24 LEDs (26W in total) placed on the aluminium body that acts as heat dissipator. The special, patented electrical system houses the power supply within the shell, and allows a direct connection to the electrical network. A translucent cover in polycarbonate closes off the body. It acts as a support for the various lenses, ensures protection for the electrical parts and provides a diffused lighting effect. Rotation of up to 358°, tilt angle of up to 180°. 4 installation options: with adaptor for 3-circuit track, with gear plate for mounting within Algoritmo product range, wall/ceiling mounted version, or base plate for semi-recessed mounting. Complies with EN60598-1 and other specific standards.
