ESPECIFICACIONES

Smart Office is a suspension appliance designed for office premises to ensure excellent performance with utmost simplicity. While its look, characterized by a lamellar optical unit, recalls traditional fluorescent suspension appliances, its heart encloses an advanced LED technology. An innovative optical study produces a very uniform light, without multiple shades or spots and without glaring (UGR <19, luminance < 3000 cd/m2 at 65°), yet ensuring a high yield. The light emitted by a LED strip is controlled by a mixing chamber before being emitted through a traditional lamellar optical unit.
