

## Track 230V External three-circuit track 2000mm White

### DESIGN

Carlotta de Bevilacqua

### BESCHREIBUNG

The system is a 3 phase mixed system with two additional conductors intended to manage a general data signal (for example dali, dmx, lon, eib, etc.). The system is EN 60570 certified and its installation must be accomplished by highly qualified person. There are four possible installation systems: directly on ceiling or on wall, using the needlepoints on the track, on ceiling or on wall using a metal clip, hanging by the suspension or recessed without exceeding the maximum loads.
