## BESCHREIBUNG

Three sizes with three different beam angles each (spot, flood, wide flood) obtained by means of refractive or hybrid optical units. Vector 55 track DALI zoom optic (22°-32°). Junction arm integrated in the spotlight's body to keep the barycentre aligned with the track and prevent any imbalance in possible suspension versions of the track. The junction allows 360° rotation and 90° tilting for maximum emission adjustment freedom. Vector 95 available only in track version. Version with compact 4-conductor (3p+n) adapter with hidden LED driver and not-dimmable phase selector.
