LUMINAIRE

– Power Supply: **Electronic Dimmable Integrated**
– Watt: **62W**
– Voltage: **220V-240V**
– Delivered lumens output: **6823lm**
– CCT: **4000K**
– Efficiency: **86%**
– Efficacy: **110.05lm/W**
– CRI: **80**

DESCRIPTION

The innovative optic system,specifically made with 108 micro-reflectors, allows a dazzle-free, controlled and concentrated light emission for single workspaces(800x1600mm, 1-desk version)or double workspaces (1600x1600mm,2-desks version).
The aluminium profile works as heat sink to dissipate heat. Driver and components are located in the central compartment.
The 4 LEDs located in each corner are protected by an integral anti-dust screen.

Luminous flux distribution: Version 1 desk – 800x1600mm: Total flux produced consists of 35% direct emission and 65% indirect emission.
Version 2 desk – 1600x1600mm: Total flux produced consists of 50% direct emission and 50% indirect emission.
Two options of light management: dimmable with manual independent control of direct and indirect emission, or Interactive DALI system offering automatic control of illumination on the working plane. A single button allows you to set the ndesired light with Interactive DALI option.
2 colours: brown and white.
Materials: head and stem in polished aluminium, base in polished aluminium, optics in metallized plastic, diffuser in clear polycarbonate.
Compliant with standard EN60598-1 and other specific regulations.
