Fitting to be completed with installation frame.

## BESCHREIBUNG

Hoy is a system of adjustable spotlights with a basic shape, yet a rich performance. A simple cylinder protrudes from the surface with varying heights for the different versions (recessed, semi-recessed, SMD, track). Its volume is divided to direct emission in space, the mobile part hosts to the source and the optical devices required to produce four different beam angles (13°, 24°, 48°, 68°).
