Funivia - Carlotta de Bevilacqua

The acronym IDX, where 'ID' stands for Interior Design, Identity and Idea, and 'X' for Experience, Exhibition and Exchange, reflects the aim of creating co-branding places based on co-working. IDX is a versatile space for dialogue and networking, inspiring through the interplay of light, colour and texture.
The centrepiece of each IDX venue is the stage, a focal point for presentations and discussions, with the possibility of using it as a mock-up area. Artemide, a leader in lighting design, contributes its advanced lighting technology by taking a responsible approach to the environment.
