

Color Matte Collection

Artemide and **Danese Milano** introduce a **Special Collaboration** that reinterprets four design icons through a new chromatic lens.

New hues enter into dialogue with timeless forms, from the historic **Dalù** and **Tolomeo** to the classic **Timor** and **Dedalo**.

A bridge between tradition and contemporaneity, between light and objects, where color becomes an expressive language that enhances spaces with playful elegance.

Dalù

Dalù, designed by Vico Magistretti in 1969, returns today in a special edition that reinterprets the iconic strength of its design. The new exclusive colors enhance a timeless classic, highlighting its playful silhouette.

Tolomeo

Tolomeo Micro, designed by Michele De Lucchi and Giancarlo Fassina, also features the colors of the collection. This special edition highlights one of Artemide's most celebrated lamps, combining the technical precision of its structure with a distinctive touch of color.
