Artemide

# Artemide partner of Triennale Estate

Artemide is partner of Triennale Estate "A garden of voices and colors", renewing a long relationship of collaborations with this prestigious cultural institution.
With an interesting cycle of meetings, events and initiatives, Triennale Milano wants to participate in one of the main driving forces developing a shared project open to all citizens.
Triennale Milano is a milestone for a city that has become a symbol of product design. This deep-rooted culture was born from a special conjunction of polytechnic philosophy and manufacturing districts, of which Artemide is a testimony.
Artemide's collaboration with Triennale Milano is the confirmation of a synergistic sharing of values connected to a local reality, Milan, which knows how to open up to everything international, welcome stimuli and relaunch innovative solutions and ideas, be an engine of innovation and future.
Through a multidisciplinary discussion, Triennale Estate programming will address important topics of our present, such as the relationship between man, nature, environment and new technologies.
Born in the cross-over and sharing of knowledge and innovation, Artemide supports culture in all its different actions.

↗ Opening

June - September

Artemide has for 60 years researched and designed for a Human and Responsible Light, promoting a new sustainable and social dimension of life.
Today this journey into the design appeal of light opens up to sophisticated forms of interaction with digital intelligences and services.
Technological innovation is geared up for the future to develop light solutions capable of enhancing the quality of life in the spaces we inhabit and which future generations will inhabit.
