Artemide & BIG: ten years on light

10.03.2026 - 06:00PM

Baseler Straße 10, Frankfurt

Artemide opens its new **Frankfurt showroom**. Expanded and repositioned within the same building, the space places the products of the **2026 Collection** at the center, unveiling the latest releases through dedicated lighting scenes. A choice in tune with the city's rhythm, as Frankfurt draws international attention to the themes of light in these days.

Within this context, Artemide also celebrates the 10th anniversary of its **collaboration with BIG – Bjarke Ingels Group**: a decade-long path of research and experimentation in which light becomes a design language. Shaped by a shared vision oriented toward innovation, this collaboration will also take center stage in a talk with Jakob Lange (BIG).
