Artemide

La Linea wins the Design Awards 2020

"Is it a lamp or an artistic installation? Both and more. La Linea, designed by BIG, combines product and design in an unforgettable way.

The flexible lamp can wrap the walls like a light wire, can be used both indoors and outdoors, and can withstand temperature changes of up to 60 degrees.

The design arouses curiosity and, like a piece of neon sculptural art, appeals to the playful spirit of all of us.

It enhances and adds new dimensions to rooms and makes them live in a completely new way. And here is the wow effect.

La Linea is a lamp that looks to the future."
