Artemide

Artemide at Orgatec

At **Orgatec** 2026 in Cologne, **Artemide** joined **Ege Carpets** with a shared exhibition dedicated to the dialogue between light and textile materials. An encounter between complementary areas of expertise, exploring new perspectives on the design of contemporary workspaces.

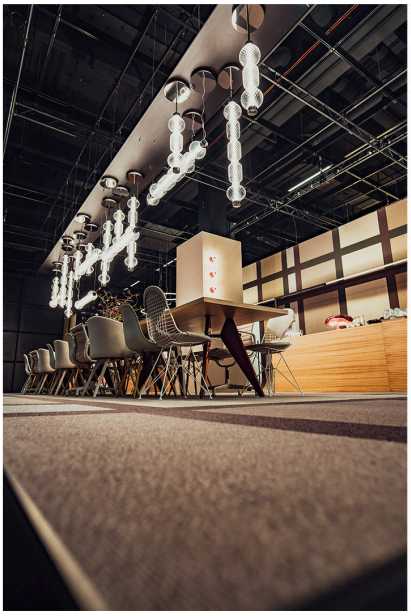

Light interacts with textures and surfaces, helping to shape the atmosphere and perception of interiors. In this relationship, material quality and **lighting innovation** come together in a design approach attentive to people's well-being and the different ways spaces are experienced.
The stand provided a setting for exchange with partners and professionals. This dialogue continues through the **IDX** network, where the collaboration between Artemide and Ege Carpets nurtures the sharing of ideas and new design possibilities.
