

Milano Design Week 2023

Artemide exhibited at **EuroLuce 2023** with products that are the result of continuous research and technological innovation. Artemide has always listened to the world, through research and through dialogue with those who design the spaces of present and future living.

The new collections shown combine innovation and ancient knowledge, these are flexible and transversal proposals capable of bringing good light to private and public spaces, personal or shared, indoors and outdoors.

In particular at EuroLuce, the main protagonists were the professional systems that increasingly complete the range of Artemide proposals with flexibility, transversality, integration and freedom of application in space and time. They are infrastructures that bring light into any space with measured parameters for perfect perception and great attention to energy commitment, which is increasingly reduced thanks to optoelectronic solutions that guarantee very high efficiencies.

EUROLUCE 2023

Milan Fairground, Rho Pero
Artemide Booth
by Mario Cucinella Architects

Artemide presented at EuroLuce the new products born from the continuous collaboration with the major international architects, synthesis and testimony of vision, research and know-how: an increasingly universal light that interprets the Made in Italy and the culture of the project that has made Milan the capital of design in the world.

MONFORTE FLAGSHIP STORE

In the historical showroom of Corso Monforte are presented the new products born from the collaboration with the most important international architects with whom Artemide collaborates sharing important values such as sustainability, central to the perspective Artemide to the future.

Artemide

INTERNI Design Re-Evolution
Università degli Studi di Milano

The installation designed by Mario Cucinella is a luminous tribute to Artemide's founder, Ernesto Gismondi, and is made using a series of Discovery Vertical models from Artemide's Discovery collection, designed by Gismondi and awarded the Compasso d'Oro in 2018.
