Artemide illuminates the new **A2A offices** in Brescia, designed by **DEGW | Lombardini22**, with the **A.39** and **A.24** lighting systems. The two solutions engage in dialogue with the architecture, meeting the needs of flexibility and comfort through high-quality optical performance and maximum adaptability. A.39 ensures efficient and controlled lighting thanks to its innovative optical system, while A.24 offers modular configurations that adapt to different spaces and uses. The result is a workspace that embodies A2A's commitment to innovation, well-being, and sustainability.
