

PKGR Meeting room

Chur, Switzerland

Year / 2026

Category / Office

Author / bundi und bundi

Photo / Andrea Badrutt

The renovation of the **PKGR meeting room** reinterprets the space as an environment where lighting, acoustics and design interact harmoniously. **Somnium System** defines the room through precise beams of light and minimal geometries, creating a minimalist and contemporary atmosphere.

Targeted acoustic solutions improve speech intelligibility, while carefully calibrated lighting enhances comfort, orientation and focus. The result is an elegant and functional workspace, where creativity and innovation can naturally come together.
