Artemide

In this villa in the province of Varese, Artemide's lighting solutions complement the clean architectural lines, enhancing materials and supporting the different activities of everyday life.
In the kitchen, **Turn Around** traces a curved path across the ceiling, combining diffused light with accent lighting from adjustable **Vector** spotlights. In the living area, **Tolomeo** provides dedicated reading light with a light, understated presence. Outdoors, a sequence of light beams articulates the façade and is reflected in the pool, creating visual continuity between the house and garden. A project where light brings together functionality and atmosphere.
