Vea wins Archiproducts Awards

We are proud to announce that **Vea**, designed by **Foster + Partners Industrial Design**, has been awarded the prestigious **Archiproducts Design Award 2025**.
This recognition celebrates a project that combines technical precision and formal purity, offering a new interpretation of light as an architectural element.
Vea is a floor lamp with a clean and contemporary design, conceived to adapt gracefully to diverse settings, both indoor and outdoor. Its balance between lightness and stability derives from the V-shaped base supporting an adjustable stem that tilts up to 30º, while the head rotates and inclines to direct light with precision and flexibility.

Vea - Foster + Partners Industrial Design

Vea - Foster + Partners Industrial Design

With Vea, Artemide and Foster + Partners Industrial Design explore a new dialogue between technology and space, creating light that integrates with architecture rather than imposing on it.
This award reinforces Artemide's commitment to innovation, sustainability, and the pursuit of design that enhances the quality of spaces through light.
