manibus PREMIO INTERNAZIONALE

Carlotta de Bevilacqua awarded with Premio MANIBUS

We are excited to announce that **Carlotta de Bevilacqua**, President and CEO of Artemide, has been awarded the **MANIBUS 2023 International Prize**.

"For her extraordinary ability to anticipate the future and imagine the unthinkable, of which her latest patented innovations, designed to improve life in enclosed spaces through artificial light, are a perfect synthesis."

MANIBUS® rewards personalities committed to the enhancement of the **culture of craftsmanship** and the promotion of manual professions in the contemporary market.
Beauty, design and project culture are the indispensable triad of the enterprise of the future.

This event underscores the importance for Artemide of enhancing the value of ancient manual techniques in an age where the introduction of the machine into industry seemed to have marked the end of craftsmanship.

As a designer, architect, and entrepreneur, **Carlotta de Bevilacqua** has contributed significantly to the research and development of innovative products, with a focus on human-centric lighting and sustainable manufacturing. Under her leadership, Artemide has become a leading company in the lighting industry, with a global presence and a commitment to social and environmental sustainability.
