Artemide

The **Meeting Room** is a futuristic experience that embodies advanced technology and innovative design. The lighting, consisting of beams of light with minimal geometries, gives the room a clean, monochromatic character without any form of visual contamination. **Alphabet of Light** traces soft lines like trajectories in the air, adding elegance and modernity. The Meeting Room, therefore, is the ideal place where creativity combines with innovation, offering a stimulating and inspiring space for the development of cutting-edge projects and ideas.
