Honourable Mention for La Linea

La Linea is a flexible tube of light capable to freely twist and turn in space according to undefined geometries. It easily fits into indoor and outdoor spaces with fixing elements that disappear into the cross section, allowing countless applications in a broad variety of locations thanks to an unprecedented combination of factors including light quality, IP protection grade and flexibility.

We are proud to announce that La Linea, designed by BIG, has been awarded with the Menzione d'Onore at the XXVII edition of the Compasso d'Oro.
