HabiSmart spaces were designed by **COIMA Image** with a design that pays attention to people's health and well-being, in line with the principles of the circular economy.

For this project, Artemide and COIMA Image chose a selection of products from the **INTEGRALIS®** collection, which are characterized by attention to lighting comfort and room sanitation.

Day & Night Sanification

In the HabiSmart space, where the presence of people is constant during the day, sanitization with the maximum intensity of radiation takes place in the night time; during the daytime, on the other hand, it is possible to opt for a non-offensive emission to maintain sanitization.
