21WOL is hotel, residence, bistro, coworking, event space. Not only a place to sleep, but a place of sharing, of experiential meeting, where you can feel at home even outside the house.
An accessible reference point for the neighborhood and the city, a coffee shop, a co-study and a garden open to everyone.
The triple height hall is the heart of the project, the hinge between the old and the new building, the space overlooked by all the community activities, the meeting place open to the garden.

Artemide

The design of the light follows the declination of the environments generating an atmosphere of sharing and emphasizing the architecture of the spaces. In public areas professional systems such as **A.24** are combined with design elements such as the classic **Castore** and **Dioscuri**, in the most representative point of the project, **Alphabet of Light** contributes to make the triple height even more scenic.
Even in the private spaces of the rooms, lighting integrated with the architecture is combined with elements such as **La Petite** table and floor lamps that allow to shape the light in the space with simplicity and elegance following the needs of the guests.
